

PhytoMax™

- Successfully replaces antibiotics as growth promoter.
- Improves FCR significantly.
- Improves final body weight.
- Reduces mortality significantly.
- Improves carcass quality.
- Reduces drip loss in the meat.
- Is Highly stable in pelletizing conditions.
- Consists of homogenous spherical particles.

AVT NATURAL

RECOMMENDED DOSAGES

25K

* PhytoMax comes in kraft bag of 25 kg, packaged in box.

POULTRY

Broilers: 250 G / ton of feed.
Layers: 250 - 500 G / ton of feed.
Breeders: 250 - 500 G / ton of feed.

SWINE

Piglets: 250 G / ton of feed.
Developing / Finishing: 250 - 500 G / ton of feed.
Sows-gestation / Lactation: 250 - 500 G / ton of feed.
